SECTION 2: Hazards identification

The information in this section and in all following sections (unless otherwise stated) refer to the product in the delivery condition (concentrate). The ready-to-use solutions prepared according to the dilution recommendation are to be classified differently (see Section 16).

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 [CLP] Eye Irrit. 2 H319 - STOT RE 2 H373 Label elements 2.2 Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms Signal word WARNING Hazard statements H319 Causes serious eye irritation. H373.8 May cause damage to kidneys through prolonged or repeated exposure if swallowed. P262 Do not get in eyes, on skin, or on clothing. Precautionary statements P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/.... P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin P303+P361+P353 with water [or shower]. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Version V14: 25.05.2018 Revision date: 19.10.2021 SD - 6441 - V15 - MOUSSOL-APS LV 1x3 F-15 #6441 - EN

Dr.STHAMER HAMBURG

	Classification procedure Bridging principle "Substantially similar mixtures".
2.3	Other hazards
	Endocrine disrupting properties
	Preparation related information
	There are no data available on the mixture itself.
	Information on ingredients 1,2-ETHANDIOL:
	This substance does not have endocrine disrupting properties with respect to humans.
	2-(2-BUTOXYETHOXY)ETHANOL:
	This substance does not have endocrine disrupting properties with respect to humans.
	OCTYLSULFATE:
	This substance does not have endocrine disrupting properties with respect to humans.
	DECYLSULFATE:
	This substance does not have endocrine disrupting properties with respect to humans.
	ALKYLPOLYGLYCOSIDE:
	This substance does not have endocrine disrupting properties with respect to humans.
	COCOAMIDOPROPYL HYDROXYSULTAINE:
	This substance does not have endocrine disrupting properties with respect to humans. FLUOROSURFACTANT:
	This substance does not have endocrine disrupting properties with respect to humans.
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
	This substance does not have endocrine disrupting properties with respect to humans.
	Results of PBT and vPvB assessment
	Preparation related information
	There are no data available on the mixture itself.
	Information on ingredients
	1,2-ETHANDIOL:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
	2-(2-BUTOXYETHOXY)ETHANOL:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
	OCTYLSULFATE:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. DECYLSULFATE:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
	ALKYLPOLYGLYCOSIDE:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
	COCOAMIDOPROPYL HYDROXYSULTAINE:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
	FLUOROSURFACTANT:
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
	The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.
	The data refer to the product as delivered. The solutions for use produced according to dilution recommendations are to be classified
	differently.
	Can harm the aquatic fauna when entering surface waters.
	Can harm the bacteria population in waste water treatment plants when entering the sewerage system.
	Breathing is not possible whilst submerged in the foam. Take care when spraying people!
	The product contains fluorosurfactants that are not completely biodegradable.
	Concentrated surfactant solutions always pose a danger to aquatic life because they greatly reduce the surface tension of water thus
	disrupting all life processes associated with it. In sewage treatment plants, for example, the necessary aeration of the sewage stages can be
	hindered by the strong foam formation.

WATER

CAS No.: 7732-18-5 Concentration: 40 - 74% The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP].

The product does not contain any relevant amounts of substances that are on the SVHC list.

Full text of H- and EUH-statements: see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information

Remove contaminated, saturated clothing immediately. Wash thoroughly the body (shower or bath). Observe risk of aspiration if vomiting occurs. When in doubt or if symptoms are observed, get medical advice.

Following inhalation

Provide fresh air.

Consult a doctor immediately in the case of inhaling spray mist and show him packing or label.

In case of skin contact

Wash immediately with:: Water

After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.

Following ingestion

Do NOT induce vomiting. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Dizziness Nausea Gastrointestinal complaints

4.3 Indication of any immediate medical attention and special treatment needed

If unconscious but breathing normally, place in recovery position and seek medical advice. IF SWALLOWED: Immediately call a POISON CENTER/doctor/....

SECTION 5: Firefighting measures

5.1 Extinguishing media

The product itself does not burn.

Co-ordinate fire-fighting measures to the fire surroundings.

5.2 Special hazards arising from the substance or mixture

The product itself does not burn.

5.3 Advice for firefighters

Regardless of the admixture of a foam agent, extinguishing water can be heavily contaminated with hazardous substances due to the absorption of fire residues and should therefore, if possible, not enter the sewage system or bodies of water.

জ

V-15 Print date: 28.10.21 Page 5 of 24

r.STHAMER HAMBURG

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation.

6.2 Environmental precautions

Cover drains.

Do not allow to enter into soil/subsoil.

Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal. Treat the recovered material as prescribed in the section on waste disposal. Suitable material for taking up Sand Sawdust Chemical binding agents, containing acids

6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: see section 8 Disposal: see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling Avoid

Skin contact Eve contact Wear personal protection equipment (refer to section 8). Measures to prevent fire The product is not oxidising Combustible Flammable Explosive Highly flammable No special fire protection measures are necessary. **Environmental precautions** Shafts and sewers must be protected from entry of the product. Advices on general occupational hygiene When using do not eat, drink, smoke, sniff. 7.2 Conditions for safe storage, including any incompatibilities Technical measures and storage conditions Do not store at temperatures above: +50°C

V-15 Print date: 28.10.21 Page 6 of 24

Requirements for storage rooms and vessels

Suitable container/equipment material Refined steel Polyethylene (PE) Unsuitable container/equipment material Aluminium Light metal Copper Zinc Alloy, containing copper Alloy, contains light metal Iron. Steel

Hints on joint storage

Storage class

12: non-combustible liquids that cannot be assigned to any of the above storage classes

7.3 Specific end use(s)

Fire-extinguishing foams based on synthetic surfactants Do not use for cleaning purposes.

Recommendation

Observe technical data sheet.

SECTION 8: Exposure controls/personal protection

8.1	Control parameters
	Substance name: 1,2-ETHANDIOL
	CAS No.: 107-21-1
	REACH No.: 01-2119456816-28-XXXX
	United Kingdom
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (EN)

	Long-term occupational exposure limit value: 10 ppm; Limit value type (country of origin): AGW (DE)
	short-term occupational exposure limit value: 15 ppm; Limit value type (country of origin): Peak (DE)
	Ireland
	Long-term occupational exposure limit value: 10 ppm; Limit value type (country of origin): TWA (IE)
	short-term occupational exposure limit value: 15 ppm; Limit value type (country of origin): STEL (IE)
8.2	Exposure controls
	Advices on general occupational hygiene
	Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500.
	Avoid contact with skin, eyes and clothes.
	Remove contaminated, saturated clothing.
	Wash contaminated clothing prior to re-use.
	Wash hands before breaks and after work.
	Apply skin care products after work.
	Eye/face protection
	Suitable eye protection
	Eye glasses with side protection
	goggles
	Face protection shield
	Recommended eye protection articles
	DIN EN 166
	Hand protection
	Suitable gloves type
	Gloves with long cuffs
	Suitable material
	NBR (Nitrile rubber)
	Butyl caoutchouc (butyl rubber)
	Breakthrough time
	120 min.
	Thickness of the glove material
	> 0.6 mm
	Recommended glove articles
	EN ISO 374
	Breakthrough times and swelling properties of the material must be taken into consideration.
	Body protection
	Body protection: not required.
	Respiratory protection
	Usually no personal respirative protection necessary.
	Environmental exposure controls
	Store concentrate according to national regulations.
	Do not let the concentrate get into the environment.
	If possible, hold back the application solution and dispose of after use.

SECTION 9: Physical and chemical properties

DECYL	SULFATE:
	This substance does not have endocrine disrupting properties with respect to humans.
	(Source: Safety Data Sheet)
ALKYLF	POLYGLYCOSIDE:
	This substance does not have endocrine disrupting properties with respect to humans.
	(Source: Safety Data Sheet)
COCOA	MIDOPROPYL HYDROXYSULTAINE:
	This substance does not have endocrine disrupting properties with respect to humans.
	(Source: Safety Data Sheet)
FLUOR	OSURFACTANT:
	This substance does not have endocrine disrupting properties with respect to humans.
	(Source: Safety Data Sheet)
INGREL	DIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
	This substance does not have endocrine disrupting properties with respect to humans.
	(Source: Safety Data Sheet)

12.7 Other adverse effects

The product contains fluorosurfactants that are not completely biodegradable.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste. Dispose of waste according to applicable legislation.

Waste codes/waste designations according to EWC/AVV

Waste code product

- 16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST
- 1603 off-specification batches and unused products

160305* organic wastes containing dangerous substances

Waste code packaging

15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED

1501 packaging (including separately collected municipal packaging waste)

150110* packaging containing residues of or contaminated by dangerous substances

Remark

Delivery to an approved waste disposal company.

Send to a hazardous waste incinerator facility under observation of official regulations.

SECTION 14: Transport information

14.1 UN number or ID number

none

14.2 UN proper shipping name

not applicable

14.3 Transport hazard class(es)

V-15 Print date: 28.10.21 Page 23 of 24

Land transport (ADR/RID) No dangerous good in sense of these transport regulations. Inland waterway craft (ADN) No dangerous good in sense of these transport regulations. Sea transport (IMDG) No dangerous good in sense of these transport regulations. Air transport (ICAO-TI / IATA-DGR) No dangerous good in sense of these transport regulations. **14.4** Packing group not applicable

14.5 Environmental hazards

Marine pollutant

14.6 Special precautions for user

none

none

14.7 Maritime transport in bulk according to IMO instruments

: No

not applicable

SECTION 15: Regulatory information

15.1	
	mixture EU legislation
	Regulation (EC) No. 2037/2000 concerning materials, which cause damage to the ozone layer. not applicable
	Regulation (EC) No. 304/2003 of the European parliament and of the council concerning the export and import of dangerous chemicals
	not applicable
	Directive 96/59/EC (PCB-guideline)
	not applicable
	Regulation (EC) No. 648/2004 (Detergents regulation) The surfactant contained in this mixture complies with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.
	Information according to 1999/13/EC about limitation of emissions of volatile organic compounds (VOC-guideline). Volatile organic compounds (VOC) content in percent by weight:: max. 15
	Regulation (EC) No. 842/2006 on certain fluorinated greenhouse gases not applicable
	Regulation (EC) No 2019/1021 [POP/PFOS-Regulation]
	The product fulfills all requirements and limit values of this EU regulation.
	Regulation (EC) No 2020/784 [PFOA-Regulation]
	The product fulfills all requirements and limit values of this EU regulation.

V-15 Print date: 28.10.21 Page 24 of 24

Regulation (EC) No 2021/1297 [C9-C14-PFCA-Regulation] The product fulfills all requirements and limit values of this EU regulation.

National regulations

Störfallverordnung This product is not classified according to StörfallVO.

Water hazard class

slightly hazardous to water (WGK 1) Self-classification according to AwSV (mixture).

Annex Chemikalien-Verbotsverordnung (ChemVerbotsV) not applicable

15.2 Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

SECTION 16: Other information

The product described in the Safety Data Sheet may only be used for its intended purpose. For exercises please observe the recommendations of the technical committee of BMU/LAMA. The details in this safety data sheet are based on today's stand of our knowledge and is applicable to the product with regard to appropriate safety precautions. They do not represent any guarantee of the properties of the product and do not establish any legal relationship.

Please refer to our internet website for more information: www.sthamer.com

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

Classification for the 1%/3% application solution of MOUSSOL-APS LV 1/3 F-15 #6441:

The information in this safety data sheet only applies to the unchanged product in the delivery condition. An application solution prepared therefrom by diluting it with water as recommended usually has significantly fewer hazardous features due to the dilution principle and can even be unclassified. See also the environmental data sheet provided by us.

Relevant R-, H- and EUH-phrases (Number and full text)

- H302 Harmful if swallowed or if inhaled.
- H315 Causes skin and eye irritation.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H373.8 May cause damage to kidneys through prolonged or repeated exposure if swallowed.
