# **SECTION 2: Hazards identification**

The information in this section and in all following sections (unless otherwise stated) refer to the product in the delivery condition (concentrate). The ready-to-use solutions prepared according to the dilution recommendation are to be classified differently (see Section 16).

#### 2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP] Acute Tox 4 H302 - Skin Irrit. 2 H315 - Eye Irrit. 2 H319 - STOT RE 2 H373

# 2.2 Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms

or repeated exposure if
tection/face protection/hearing
omiting.
taminated clothing. Rinse skin

## TETRADECANOL

CAS No.: 112-72-1 EC No.: 204-000-3 REACH No.: 01-2119485910-33-XXXX Concentration: 0,25 - 2,5% Classification according to Regulation (EC) No 1272/2008 [CLP]: GHS07-GHS09; Eye Irrit. 2-Aquatic Chronic 1; H319-H410

S

### WATER

CAS No.: 7732-18-5 Concentration: 34 - 62,4% The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP].

The product does not contain any relevant amounts of substances that are on the SVHC list.

Full text of H- and EUH-statements: see section 16.

# **SECTION 4: First aid measures**

4.1	Description of first aid measures
	General information
	Remove contaminated, saturated clothing immediately.
	Wash thoroughly the body (shower or bath).
	Observe risk of aspiration if vomiting occurs.
	When in doubt or if symptoms are observed, get medical advice.
	Following inhalation
	Provide fresh air.
	Consult a doctor immediately in the case of inhaling spray mist and show him packing or label.
	In case of skin contact
	Wash immediately with:: Water
	After eye contact
	In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.
	Following ingestion
	Do NOT induce vomiting.
	If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.
4.2	Most important symptoms and effects, both acute and delayed
	Dizziness
	Nausea
	Gastrointestinal complaints
4.3	Indication of any immediate medical attention and special treatment needed
	If unconscious but breathing normally, place in recovery position and seek medical advice.
	IF SWALLOWED: Immediately call a POISON CENTER/doctor/
SEC	TION 5: Firefighting measures

# 5.1 Extinguishing media

The product itself does not burn.

Co-ordinate fire-fighting measures to the fire surroundings.

V-17 Print date: 28.10.21 Page 5 of 25

#### 5.2 Special hazards arising from the substance or mixture

The product itself does not burn.

## 5.3 Advice for firefighters

Regardless of the admixture of a foam agent, extinguishing water can be heavily contaminated with hazardous substances due to the absorption of fire residues and should therefore, if possible, not enter the sewage system or bodies of water.

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation.

#### 6.2 **Environmental precautions**

Cover drains.

Do not allow to enter into soil/subsoil.

Do not allow to enter into surface water or drains.

## 6.3 Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal. Treat the recovered material as prescribed in the section on waste disposal. Suitable material for taking up Sand Sawdust Chemical binding agents, containing acids

#### 6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: see section 8 Disposal: see section 13

# **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Avoid

Skin contact Eye contact Wear personal protection equipment (refer to section 8).

#### Measures to prevent fire

The product is not oxidising Combustible Flammable Explosive

Highly flammable

No special fire protection measures are necessary.

#### **Environmental precautions**

Shafts and sewers must be protected from entry of the product.

V-17 Print date: 28.10.21 Page 6 of 25

# Advices on general occupational hygiene When using do not eat, drink, smoke, sniff. 7.2 Conditions for safe storage, including any incompatibilities Technical measures and storage conditions Do not store at temperatures above: +50°C Requirements for storage rooms and vessels Suitable container/equipment material Refined steel Polyethylene (PE) Unsuitable container/equipment material Aluminium Light metal Copper Zinc Alloy, containing copper Alloy, contains light metal Iron. Steel Hints on joint storage Storage class 12: non-combustible liquids that cannot be assigned to any of the above storage classes 7.3 Specific end use(s) Fire-extinguishing foams based on synthetic surfactants Do not use for cleaning purposes. Recommendation Observe technical data sheet. **SECTION 8: Exposure controls/personal protection**

	Technically correct releases of minimal concentrations to adapted biological sewage plants, will not disturb the biodegradability of activated
	sludge.
	The product may lead to foaming in sewage plants.
	Remark
	Observe local regulations concerning effluent treatment.
	Special pre-treatments are necessary.
	* The statement is derived from products of similar structure or composition.
12.2	Persistence and degradability
	Biodegradation
	Preparation related information
	Readily biodegradable (according to OECD criteria).
	Degradation rate : > 70%*
	Test duration : 28 d
	Analytical method : BOD (% of COD).
	Method : Bridging principle "Substantially similar mixtures".
	Type : Aerobic biological treatment

12.7 O	ther adverse effects

# **SECTION 13: Disposal considerations**

## 13.1 Waste treatment methods

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste. Dispose of waste according to applicable legislation.

# Waste codes/waste designations according to EWC/AVV

#### Waste code product

16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST

- 1603 off-specification batches and unused products
- 160305\* organic wastes containing dangerous substances

# Waste code packaging

- 15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED
- **1501** packaging (including separately collected municipal packaging waste)
- 150110\* packaging containing residues of or contaminated by dangerous substances

V-17 Print date: 28.10.21 Page 23 of 25

**STHAMER** MAMBURG

# Remark

Delivery to an approved waste disposal company. Send to a hazardous waste incinerator facility under observation of official regulations.

# **SECTION 14: Transport information**

### **14.1 UN number or ID number**

none

### 14.2 UN proper shipping name

not applicable

# **14.3 Transport hazard class(es)**

Land transport (ADR/RID)

No dangerous good in sense of these transport regulations. Inland waterway craft (ADN) No dangerous good in sense of these transport regulations.

Sea transport (IMDG)

No dangerous good in sense of these transport regulations.

Air transport (ICAO-TI / IATA-DGR)

No dangerous good in sense of these transport regulations.

#### 14.4 Packing group

not applicable

#### 14.5 Environmental hazards

none

Marine pollutant : No

## 14.6 Special precautions for user

none

#### 14.7 Maritime transport in bulk according to IMO instruments

not applicable

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Regulation (EC) No. 2037/2000 concerning materials, which cause damage to the ozone layer. not applicable

Regulation (EC) No. 304/2003 of the European parliament and of the council concerning the export and import of dangerous chemicals

not applicable

Directive 96/59/EC (PCB-guideline) not applicable

Regulation (EC) No. 648/2004 (Detergents regulation)

V-17 Print date: 28.10.21 Page 24 of 25

**, STHAMER** MAMBUR

The surfactant contained in this mixture complies with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.

Information according to 1999/13/EC about limitation of emissions of volatile organic compounds (VOC-guideline). Volatile organic compounds (VOC) content in percent by weight:: max. 20

Regulation (EC) No. 842/2006 on certain fluorinated greenhouse gases not applicable

#### Regulation (EC) No 2019/1021 [POP/PFOS-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

#### Regulation (EC) No 2020/784 [PFOA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

#### Regulation (EC) No 2021/1297 [C9-C14-PFCA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

### National regulations

### Störfallverordnung

This product is not classified according to StörfallVO.

#### Water hazard class

slightly hazardous to water (WGK 1) Self-classification according to AwSV (mixture).

Annex Chemikalien-Verbotsverordnung (ChemVerbotsV) not applicable

#### **15.2 Chemical Safety Assessment**

Chemical safety assessments for substances in this mixture were not carried out.

## **SECTION 16: Other information**

The product described in the Safety Data Sheet may only be used for its intended purpose. For exercises please observe the recommendations of the technical committee of BMU/LAMA. The details in this safety data sheet are based on today's stand of our knowledge and is applicable to the product with regard to appropriate safety precautions. They do not represent any guarantee of the properties of the product and do not establish any legal relationship.

Please refer to our internet website for more information: www.sthamer.com

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

Classification for the 2% application solution of STHAMEX-SV-HT 2% F-10 #9273: The information in this safety data sheet only applies to the unchanged product in the delivery condition. An application solution prepared therefrom by

**V-17** Print date: 28.10.21 Page 25 of 25

diluting it with water as recommended usually has significantly fewer hazardous features due to the dilution principle and can even be unclassified. See also the environmental data sheet provided by us.
