	Telephone	+49 (0)551/19240		

SECTION 2: Hazards identification

The information in this section and in all following sections (unless otherwise stated) refer to the product in the delivery condition (concentrate). The ready-to-use solutions prepared according to the dilution recommendation are to be classified differently (see Section 16).

2.1	Classification of the substance or mixture					
	Classification according to Regulation (EC) No 1272/2008 [CLP]					
	Skin Irrit. 2 H315 - Eye Irrit. 2 H319					
2.2	Label elements					
	Labelling according to Regulation (EC) No. 1272/2008 [CLP]					
	Hazard pictograms					
	Signal word	WARNING				
	Hazard statements	H315	Causes skin and eye irritation.			
		H319	Causes serious eye irritation.			
		H412	Harmful to aquatic life with long lasting effects.			
	Precautionary statements	P262	Do not get in eyes, on skin, or on clothing.			
	·	P280	Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/			
		P301+P330+P331	IF SWALLOWED: rinse mouth. Do NOT induce vomiting.			
		P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].			
		P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.			

V-10 Print date: 28.10.21 Page 2 of 26

	Classification procedure Bridging principle "Substantially similar mixtures".						
3	Other hazards						
	Endocrine disrupting properties						
Preparation related information							
There are no data available on the mixture itself.							
	Information on ingredients						
	1.2-ETHANDIOL:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	1-BUTOXY-2-PROPANOL:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	OCTYLSULFATE:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	DECYLSULFATE:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	SODIUM-ALKYLETHERSULFATE:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	SODIUM-ALPHA-OLEFIN SULFONATE:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	DODECANOL:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	TETRADECANOL:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:						
	This substance does not have endocrine disrupting properties with respect to humans.						
	Results of PBT and vPvB assessment						
	Preparation related information						
	There are no data available on the mixture itself.						
	Information on ingredients 1,2-ETHANDIOL:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	1-BUTOXY-2-PROPANOL:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	OCTYLSULFATE:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	DECYLSULFATE:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	SODIUM-ALKYLETHERSULFATE:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	SODIUM-ALPHA-OLEFIN SULFONATE:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	DODECANOL:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	TETRADECANOL:						
	This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.						
	INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:						
	The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.						
	The data refer to the product as delivered. The solutions for use produced according to dilution recommendations are to be classified						
	differently.						
	Can harm the aquatic fauna when entering surface waters.						
	Can harm the bacteria population in waste water treatment plants when entering the sewerage system.						
	Breathing is not possible whilst submerged in the foam. Take care when spraying people!						
	Concentrated surfactant solutions always pose a danger to aquatic life because they greatly reduce the surface tension of water thus						
	disrupting all life processes associated with it. In sewage treatment plants, for example, the necessary aeration of the sewage stages can be						

V-10 Print date: 28.10.21 Page 3 of 26

hindered by the strong foam formation.

TETRADECANOL

CAS No.: 112-72-1 EC No.: 204-000-3 REACH No.: 01-2119485910-33-XXXX Concentration: 0,1 - 1% Classification according to Regulation (EC) No 1272/2008 [CLP]: GHS07-GHS09; Eye Irrit. 2-Aquatic Chronic 1; H319-H410

INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES

Concentration: 10 - 15% The substances are not classified as dangerous according to Regulation (EC) No. 1272/2008 [CLP].

WATER

CAS No.: 7732-18-5 Concentration: 33 - 65,8% The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP].

The product does not contain any relevant amounts of substances that are on the SVHC list.

Full text of H- and EUH-statements: see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

General information

Remove contaminated, saturated clothing immediately. Wash thoroughly the body (shower or bath). Observe risk of aspiration if vomiting occurs. When in doubt or if symptoms are observed, get medical advice.

Following inhalation

Provide fresh air. Consult a doctor immediately in the case of inhaling spray mist and show him packing or label.

In case of skin contact

Wash immediately with:: Water

After eye contact

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist.

Following ingestion

Do NOT induce vomiting.

If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Dizziness Nausea Gastrointestinal complaints

4.3 Indication of any immediate medical attention and special treatment needed

If unconscious but breathing normally, place in recovery position and seek medical advice. IF SWALLOWED: Immediately call a POISON CENTER/doctor/....

SECTION 5: Firefighting measures

V-10 Print date: 28.10.21 Page 5 of 26

5.1 Extinguishing media

The product itself does not burn.

Co-ordinate fire-fighting measures to the fire surroundings.

5.2 Special hazards arising from the substance or mixture

The product itself does not burn.

5.3 Advice for firefighters

Regardless of the admixture of a foam agent, extinguishing water can be heavily contaminated with hazardous substances due to the absorption of fire residues and should therefore, if possible, not enter the sewage system or bodies of water.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation.

6.2 Environmental precautions

Cover drains.

Do not allow to enter into soil/subsoil.

Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal. Treat the recovered material as prescribed in the section on waste disposal. Suitable material for taking up Sand Sawdust Chemical binding agents, containing acids

6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: see section 8 Disposal: see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid Skin contact Eye contact Wear personal protection equipment (refer to section 8).

Measures to prevent fire

The product is not oxidising Combustible Flammable Explosive Highly flammable No special fire protection measures are necessary.

V-10 Print date: 28.10.21 Page 6 of 26

Environmental precautions Shafts and sewers must be protected from entry of the product.

Advices on general occupational hygiene When using do not eat, drink, smoke, sniff.

7.2	Conditions	for safe storage	, including any	, incompatibilities
-----	------------	------------------	-----------------	---------------------

Technical measures and storage conditions Do not store at temperatures above: +50°C

Requirements for storage rooms and vessels

Suitable container/equipment material Refined steel Polyethylene (PE) Unsuitable container/equipment material Aluminium Light metal Copper Zinc Alloy, containing copper Alloy, contains light metal Iron. Steel

Hints on joint storage

Storage class

12: non-combustible liquids that cannot be assigned to any of the above storage classes

7.3 Specific end use(s)

Fire-extinguishing foams based on synthetic surfactants Do not use for cleaning purposes.

Recommendation

Observe technical data sheet.

SECTION 8: Exposure controls/personal protection

8.1	Control parameters
	Substance name: 1,2-ETHANDIOL
	CAS No.: 107-21-1
	REACH No.: 01-2119456816-28-XXXX
	United Kingdom
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (EN)
	short-term occupational exposure limit value: 40 ppm; Limit value type (country of origin): STEL (EN)
	European Union
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (EC)
	short-term occupational exposure limit value: 40 ppm; Limit value type (country of origin): STEL (EC)
	Germany
	Long-term occupational exposure limit value: 10 ppm; Limit value type (country of origin): AGW (DE)
	short-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): Peak (DE) Ireland
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (IE)

V-10 Print date: 28.10.21 Page 7 of 26

	short-term occupational exposure limit value: 40 ppm; Limit value type (country of origin): STEL (IE)
8.2	Exposure controls
	Advices on general occupational hygiene
	Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500.
	Avoid contact with skin, eyes and clothes.
	Remove contaminated, saturated clothing.
	Wash contaminated clothing prior to re-use.
	Wash hands before breaks and after work.
	Apply skin care products after work.
	Eye/face protection
	Suitable eye protection
	Eye glasses with side protection
	goggles
	Face protection shield
	Recommended eye protection articles
	DIN EN 166
	Hand protection
	Suitable gloves type
	Gloves with long cuffs
	Suitable material
	NBR (Nitrile rubber)
	Butyl caoutchouc (butyl rubber)
	Breakthrough time
	120 min.
	Thickness of the glove material
	> 0.6 mm
	Recommended glove articles
	EN ISO 374
	Breakthrough times and swelling properties of the material must be taken into consideration.
	Body protection
	Body protection: not required.
	Respiratory protection
	Usually no personal respirative protection necessary.
	Environmental exposure controls
	Store concentrate according to national regulations.
	Do not let the concentrate get into the environment.
	If possible, hold back the application solution and dispose of after use.

INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
No indications of human germ cell mutagenicity exist.
(Source: Safety Data Sheet)
f) Carcinogenicity
Preparation related information
There are no data available on the mixture itself.
Information on ingredients
1,2-ETHANDIOL:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
1-BUTOXY-2-PROPANOL:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
OCTYLSULFATE:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
DECYLSULFATE:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
SODIUM-ALKYLETHERSULFATE:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
SODIUM-ALPHA-OLEFIN SULFONATE:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
DODECANOL:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
TETRADECANOL:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:
No indication of human carcinogenicity.
(Source: Safety Data Sheet)
g) Reproductive toxicity
Preparation related information
There are no data available on the mixture itself.
Information on ingredients
1,2-ETHANDIOL:
No indications of human reproductive toxicity exist.
(Source: Safety Data Sheet)
1-BUTOXY-2-PROPANOL:
No indications of human reproductive toxicity exist.

## 12.7 Other adverse effects

----

## **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste. Dispose of waste according to applicable legislation.

### Waste codes/waste designations according to EWC/AVV

Waste code product

- 16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST
- 1603 off-specification batches and unused products
- 160305* organic wastes containing dangerous substances

#### Waste code packaging

- 15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED
- **1501** packaging (including separately collected municipal packaging waste)
- 150110* packaging containing residues of or contaminated by dangerous substances

#### Remark

Delivery to an approved waste disposal company.

Send to a hazardous waste incinerator facility under observation of official regulations.

	none
14.2	UN proper shipping name
	not applicable
14.3	Transport hazard class(es)
	Land transport (ADR/RID)
	No dangerous good in sense of these transport regulations.
	Inland waterway craft (ADN)
	No dangerous good in sense of these transport regulations.
	Sea transport (IMDG)
	No dangerous good in sense of these transport regulations.
	Air transport (ICAO-TI / IATA-DGR)
	No dangerous good in sense of these transport regulations.
14.4	Packing group
	not applicable
14.5	Environmental hazards
	none
	Marine pollutant : No
14.6	Special precautions for user
	none
14.7	Maritime transport in bulk according to IMO instruments
	not applicable

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Regulation (EC) No. 2037/2000 concerning materials, which cause damage to the ozone layer. not applicable

Regulation (EC) No. 304/2003 of the European parliament and of the council concerning the export and import of dangerous chemicals

not applicable

Directive 96/59/EC (PCB-guideline) not applicable

Regulation (EC) No. 648/2004 (Detergents regulation)

The surfactant contained in this mixture complies with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.

Information according to 1999/13/EC about limitation of emissions of volatile organic compounds (VOC-guideline).

V-10 Print date: 28.10.21 Page 25 of 26

Volatile organic compounds (VOC) content in percent by weight:: max. 20

Regulation (EC) No. 842/2006 on certain fluorinated greenhouse gases not applicable

#### Regulation (EC) No 2019/1021 [POP/PFOS-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

#### Regulation (EC) No 2020/784 [PFOA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

#### Regulation (EC) No 2021/1297 [C9-C14-PFCA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

#### National regulations

Störfallverordnung This product is not classified according to StörfallVO.

#### Water hazard class

slightly hazardous to water (WGK 1) Self-classification according to AwSV (mixture).

# Annex Chemikalien-Verbotsverordnung (ChemVerbotsV) not applicable

#### **15.2 Chemical Safety Assessment**

Chemical safety assessments for substances in this mixture were not carried out.

## **SECTION 16: Other information**

The product described in the Safety Data Sheet may only be used for its intended purpose. For exercises please observe the recommendations of the technical committee of BMU/LAMA. The details in this safety data sheet are based on today's stand of our knowledge and is applicable to the product with regard to appropriate safety precautions. They do not represent any guarantee of the properties of the product and do not establish any legal relationship.

Please refer to our internet website for more information: www.sthamer.com

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

#### Classification for the 3% application solution of STHAMEX 3% F-25 #9347:

The information in this safety data sheet only applies to the unchanged product in the delivery condition. An application solution prepared therefrom by diluting it with water as recommended usually has significantly fewer hazardous features due to the dilution principle and can even be unclassified. See also the environmental data sheet provided by us.

#### Relevant R-, H- and EUH-phrases (Number and full text)

**V-10** Print date: 28.10.21 Page 26 of 26

H302	Harmful if swallowed or if inhaled.
H315	Causes skin and eye irritation.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H373.8	May cause damage to kidneys through prolonged or repeated exposure if swallowed.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
