

Safety Data Sheet according to Regulation (EC) No. 1907/2006 (REACH)/(EU) 2020/878

STHAMEX[®] MARINE 3% F-20 #9372

SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1 **Product identifier STHAMEX[®] MARINE 3% F-20 #9372** UFI: TNXT-P0JG-T00P-9WUS 1.2 Relevant identified uses of the substance or mixture and uses advised against Use of the substance/mixture Fire-extinguishing foam 1.3 Details of the supplier of the safety data sheet Fabrik chemischer Präparate von Dr. R. Sthamer GmbH & Co. KG Manufacturer Street Liebigstraße 5 Postal code/City D-22113 Hamburg Country Deutschland Telephone +49 (0)40/736168-0 Telefax +49 (0)40/736168-60 E-mail (competent person) labor@sthamer.com Website http://sthamer.com Department responsible for information Dr. Prall, +49 (0)40/736168-31 Emergency telephone number +49 (0)40/736168-0 1.4 **Emergency telephone number** GIZ-Nord Poisons Centre of the University of Göttingen +49 (0)551/19240

SECTION 2: Hazards identification

The information in this section and in all following sections (unless otherwise stated) refer to the product in the delivery condition (concentrate). The ready-to-use solutions prepared according to the dilution recommendation are to be classified differently (see Section 16).

2.1 **Classification of the substance or mixture** Classification according to Regulation (EC) No 1272/2008 [CLP] Skin Irrit. 2 H315 - Eye Dam. 1 H318 2.2 Label elements Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms DANGER Signal word Hazard statements Causes skin and eye irritation. H315 H318 Causes serious eye damage. Precautionary statements P262 Do not get in eyes, on skin, or on clothing. P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/.... P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Classification procedure

Bridging principle "Substantially similar mixtures".

2.3 Other hazards

Endocrine disrupting properties

<u>Preparation related information</u> There are no data available on the mixture itself.

Information on ingredients

1.2-ETHANDIOL:

This substance does not have endocrine disrupting properties with respect to humans. 1-BUTOXY-2-PROPANOL:

This substance does not have endocrine disrupting properties with respect to humans. OCTYLSULFATE:

This substance does not have endocrine disrupting properties with respect to humans. DECYLSULFATE:

This substance does not have endocrine disrupting properties with respect to humans. SODIUM-ALPHA-OLEFIN SULFONATE:

This substance does not have endocrine disrupting properties with respect to humans. COCOAMIDOPROPYL HYDROXYSULTAINE:

This substance does not have endocrine disrupting properties with respect to humans. SODIUM 3-[(2-CARBOXYETHYL)(DODECYL)AMINO]PROPANOATE:

This substance does not have endocrine disrupting properties with respect to humans. SODIUM ALKYLSULFATE:

This substance does not have endocrine disrupting properties with respect to humans. INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

This substance does not have endocrine disrupting properties with respect to humans.

Results of PBT and vPvB assessment

Preparation related information

There are no data available on the mixture itself.

Information on ingredients

1,2-ETHANDIOL:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. 1-BUTOXY-2-PROPANOL:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. OCTYLSULFATE:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. DECYLSULFATE:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. SODIUM-ALPHA-OLEFIN SULFONATE:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. COCOAMIDOPROPYL HYDROXYSULTAINE:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. SODIUM 3-[(2-CARBOXYETHYL)(DODECYL)AMINO]PROPANOATE:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII. SODIUM ALKYLSULFATE:

This substance does not meet the PBT/vPvB criteria of REACH, Annex XIII.

INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES:

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

The data refer to the product as delivered. The solutions for use produced according to dilution recommendations are to be classified differently. Can harm the aquatic fauna when entering surface waters.

Can harm the bacteria population in waste water treatment plants when entering the sewerage system.

Breathing is not possible whilst submerged in the foam. Take care when spraying people!

Concentrated surfactant solutions always pose a danger to aquatic life because they greatly reduce the surface tension of water thus disrupting all life processes associated with it. In sewage treatment plants, for example, the necessary aeration of the sewage stages can be hindered by the strong foam formation.

INGREDIENTS NOT CLASSIFIED AS HAZARDOUS SUBSTANCES

Concentration: 5 - 10% The substances are not classified as dangerous according to Regulation (EC) No. 1272/2008 [CLP].

WATER

CAS No.: 7732-18-5 Concentration: 27,5 - 65,75% The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP].

The product does not contain any relevant amounts of substances that are on the SVHC list.

For full text of Hazard- and EU Hazard-statements: see SECTION 16.

SECTION 4: First aid measures

4.1 **Description of first aid measures** General information Remove contaminated, saturated clothing immediately. Wash thoroughly the body (shower or bath). Observe risk of aspiration if vomiting occurs. When in doubt or if symptoms are observed, get medical advice. Following inhalation Provide fresh air. Consult a doctor immediately in the case of inhaling spray mist and show him packing or label. In case of skin contact Wash immediately with:: Water After eye contact In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. **Following ingestion** Do NOT induce vomiting. If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. 4.2 Most important symptoms and effects, both acute and delayed Dizziness Nausea Gastrointestinal complaints 4.3 Indication of any immediate medical attention and special treatment needed If unconscious but breathing normally, place in recovery position and seek medical advice. IF SWALLOWED: Immediately call a POISON CENTER/doctor/...

SECTION 5: Firefighting measures

5.1 Extinguishing media

The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

5.2 Special hazards arising from the substance or mixture

The product itself does not burn.

5.3 Advice for firefighters

Regardless of the admixture of a foam agent, extinguishing water can be heavily contaminated with hazardous substances due to the absorption of fire residues and should therefore, if possible, not enter the sewage system or bodies of water.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation.

6.2 Environmental precautions

Cover drains. Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal. Treat the recovered material as prescribed in the section on waste disposal. Suitable material for taking up Sand Sawdust Chemical binding agents, containing acids

6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: see section 8 Disposal: see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid Skin contact Eye contact Wear personal protection equipment (refer to section 8).

Measures to prevent fire

The product is not oxidising Combustible Flammable Explosive Highly flammable No special fire protection measures are necessary.

Environmental precautions

Shafts and sewers must be protected from entry of the product.

Advices on general occupational hygiene

When using do not eat, drink, smoke, sniff.

	Technical measures and storage conditions
	Do not store at temperatures above: +50°C
	Requirements for storage rooms and vessels
	Suitable container/equipment material
	Refined steel
	Polyethylene (PE)
	Unsuitable container/equipment material
	Aluminium
	Light metal
	Copper
	Zinc
	Alloy, containing copper
	Alloy, contains light metal
	Iron.
	Steel
	Hints on joint storage
	Storage class
	12: non-combustible liquids that cannot be assigned to any of the above storage classes
.3	Specific end use(s)
	Fire-extinguishing foams based on synthetic surfactants
	Do not use for cleaning purposes.
	Recommendation
	Observe technical data shoot

Observe technical data sheet.

SECTION 8: Exposure controls/personal protection

8.1	Control parameters
	Substance name: 1,2-ETHANDIOL
	CAS No.: 107-21-1
	REACH No.: 01-2119456816-28-XXXX
	United Kingdom
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (EN)
	short-term occupational exposure limit value: 40 ppm; Limit value type (country of origin): STEL (EN)
	European Union
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (EC)
	short-term occupational exposure limit value: 40 ppm; Limit value type (country of origin): STEL (EC)
	Germany
	Long-term occupational exposure limit value: 10 ppm; Limit value type (country of origin): AGW (DE)
	short-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): Peak (DE) Ireland
	Long-term occupational exposure limit value: 20 ppm; Limit value type (country of origin): TWA (IE)
	short-term occupational exposure limit value: 40 ppm; Limit value type (country of origin): STEL (IE)
8.2	Exposure controls
	Advices on general occupational hygiene
	Minimum standard for preventive measures while handling with working materials are specified in the TRGS 500.
	Avoid contact with skin, eyes and clothes.
	Remove contaminated, saturated clothing.
	Wash contaminated clothing prior to re-use.
	Wash bends before breaks and after work.
	Apply skin care products after work.
	Appy skin care produces and work.

Eye/face protection

Suitable eye protection Eye glasses with side protection goggles Face protection shield Recommended eye protection articles EN 166

Hand protection

Suitable gloves type Gloves with long cuffs Suitable material NBR (Nitrile rubber) Butyl caoutchouc (butyl rubber) Breakthrough time 120 min. Thickness of the glove material > 0.6 mm Recommended glove articles EN ISO 374 Breakthrough times and swelling properties of the material must be taken into consideration.

Body protection

Body protection: not required.

Respiratory protection

Usually no personal respirative protection necessary.

Environmental exposure controls

Store concentrate according to national regulations. Do not let the concentrate get into the environment. If possible, hold back the application solution and dispose of after use.

SECTION 9: Physical and chemical properties

a)	Physical state			:	Liquid		
b)	Colour			:	colourless / yellow		
c)	Odour			:	Glycol, Ether, Surfactant		
d)	Melting point/freezi	ng point		:	-20°C	EN 1568:201	8
e)	Boiling point or init	al boiling point	and boiling	3

12.7 Other adverse effects	12.7	Other adverse effects

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste. Dispose of waste according to applicable legislation.

Waste codes/waste designations according to EWC/AVV

Waste code product

- 16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST
- 1603 off-specification batches and unused products
- **160305*** organic wastes containing dangerous substances

Waste code packaging

- 15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED
- 1501 packaging (including separately collected municipal packaging waste)
- 150110* packaging containing residues of or contaminated by dangerous substances

Remark

Delivery to an approved waste disposal company. Send to a hazardous waste incinerator facility under observation of official regulations.

SECTION 14: Transport information 14.1 UN number or ID number none 14.2 UN proper shipping name not applicable 14.3 Transport hazard class(es) Land transport (ADR/RID) No dangerous good in sense of these transport regulations. Inland waterway craft (ADN) No dangerous good in sense of these transport regulations. Sea transport (IMDG) No dangerous good in sense of these transport regulations. Air transport (ICAO-TI / IATA-DGR) No dangerous good in sense of these transport regulations. 14.4 Packing group not applicable 14.5 Environmental hazards none Marine pollutant : No 14.6 Special precautions for user none 14.7 Maritime transport in bulk according to IMO instruments not applicable

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Regulation (EC) No. 2037/2000 concerning materials, which cause damage to the ozone layer not applicable

Regulation (EU) No. 649/2012 of the European parliament and of the council concerning the export and import of dangerous chemicals not applicable

Directive 96/59/EC (PCB-guideline) not applicable

Regulation (EC) No. 648/2004 [Detergents regulation] The surfactant contained in this mixture complies with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.

Information according to 1999/13/EC about limitation of emissions of volatile organic compounds (VOC-guideline). Volatile organic compounds (VOC) content in percent by weight:: max. 20

Regulation (EC) No. 842/2006 on certain fluorinated greenhouse gases not applicable

Regulation (EC) No 2019/1021 [POP/PFOS-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

Regulation (EC) No 2020/784 [PFOA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

Regulation (EC) No 2021/1297 [C9-C14-PFCA-Regulation]

The product is manufactured without the intended addition of organofluorine compounds for the purpose of increasing performance and therefore does not contain any amount of organofluorine substances beyond the regional ubiquitous background pollution (e.g. in the drinking water used for production).

National regulations

Störfallverordnung (12. BlmschV) This product is not classified according to StörfallV.

Water hazard class

slightly hazardous to water (WGK 1) Self-classification according to AwSV (mixture).

Annex Chemikalien-Verbotsverordnung (ChemVerbotsV) not applicable

15.2 Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

SECTION 16: Other information

The product described in the Safety Data Sheet may only be used for its intended purpose. For exercises please observe the recommendations of the technical committee of BMU/LAMA. The details in this safety data sheet are based on today's stand of our knowledge and is applicable to the product with regard to appropriate safety precautions. They do not represent any guarantee of the properties of the product and do not establish any legal relationship.

Please refer to our internet website for more information. www.sthamer.com

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.

Classification for the 3% application solution of STHAMEX MARINE 3% F-20 #9372:

The information in this safety data sheet only applies to the unchanged product in the delivery condition. An application solution prepared therefrom by diluting it with water as recommended usually has significantly fewer hazardous features due to the dilution principle and can even be unclassified. See also the environmental data sheet provided by us.

Full text of Hazard- and EU Hazard-statements

- H302 Harmful if swallowed or if inhaled.
- H315 Causes skin and eye irritation.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H373.8 May cause damage to kidneys through prolonged or repeated exposure if swallowed.
- H412 Harmful to aquatic life with long lasting effects.
